B.3 STATEMENT OF WORK

1. GENERAL INFORMATION

a. Title of Project: Pharmaceutical Repackaging Program

b. Background

i. The Department of Veterans Affairs (VA) Pharmacy Benefits Management (PBM) and Consolidated Mail Outpatient Pharmacy (CMOP) has identified the need to receive repackaging and warehouse support from a contracted repackager/distributor (contractor) for oral, solid pharmaceuticals. The Pharmaceutical Repackaging Program (PRP), which is administered by the Department of Veterans Affairs (VA), National Acquisition Center (NAC), requires a contractor to serve as a unit-of-use repackager and distributor for generic pharmaceuticals needed by VA healthcare facilities. Under the program, NAC will purchase the bulk pharmaceuticals, separately from this contract, and arrange for delivery of such products to the contractor for processing. The Contracting Officer will provide instructions to the contractor for repackaging of the bulk product into various bottle sizes. In addition to repackaging of pharmaceuticals, the contractor shall be required to warehouse government-owned pharmaceuticals until such time ordered by facilities. Contractor shall ship product FOB Destination to VA facilities. The vast majority of shipment will be sent to facilities within the 50 United States; however there will also be nominal shipments to Puerto Rico, American Samoa, the Virgin Islands, Guam, and the Philippines. Currently there are eight drugs covered by the repackaging program (see Attachment C). Some products will be provided in package sizes of 500 or 1000 and will require no repackaging, but will be required to be warehoused and distributed by the contractor so that VA will be assured of availability and consistency of product for nationwide usage. The mix and variety of bottle sizes required to be repackaged or warehoused by the contractor may vary through the life of the contract as the Contracting Officer adds drugs and package sizes to the program.

ii. The Contracting Officer at VA NAC is the only one authorized to order repackaging services under this contract. There are seven CMOPs and approximately 140 other facilities that may order pharmaceuticals under this program for delivery to their locations, through the repackager.

iii. Pharmaceuticals delivered to the contractor for repackaging will typically be in package sizes of 500s or 1000s, but may come in larger sizes.

iv. Some pharmaceuticals will be resold in the quantity and packaging they are received in and will require no repackaging. (e.g. bought in 1000ct bottles and only warehoused and distributed by the repackager.)

c. Scope of Work

i. To provide pharmaceutical repackaging, warehousing, and distribution services for both controlled and non-controlled pharmaceuticals.

ii. Provide the bottles, caps and labels for the repackaged pharmaceuticals.

iii. Contractor is responsible for repackaging approximately 550,000 bottles of various pharmaceuticals each month.

iv. Contractor is responsible for warehousing approximately 550,000 bottles of various pharmaceuticals at all times.

v. Contractor is responsible for distributing approximately 550,000 bottles of various pharmaceuticals nationwide, also including Puerto Rico, American Samoa, the Virgin Islands, Guam, and the Philippines.

vi. The numbers above are not cumulative but are meant to illustrate how this Pharmaceutical Repackaging Program works. In any given month the contractor can be expected to distribute 550,000 bottles, warehouse 550,000 bottles, and repackage 550,000. There will be a constant inflow and outflow of product through the repackager's facility(s) as product is received, orders are placed, and with VA maintaining a constant (approximate) 30-45 day supply of product on hand for all products at the repackager's facility(s).

2. Specific Requirements

a. Applicable Credentialing / Certification / Regulations / Standards

i. Contractor shall be FDA approved to repackage oral, solid pharmaceuticals and certified with the Drug Enforcement Agency (DEA) for class III (narcotic and non-narcotic), Class IV, and Class V controlled substances.

ii. Contractor control, accounting and repackaging of pharmaceuticals shall be done using FDA and DEA guidance, regulations and approved procedures, and in accordance with Current Good Manufacturing Practices (cGMPs).

iii. Contractor shall warehouse pharmaceuticals in accordance with FDA and U.S. Pharmacopeial Convention (USP) standards for both security and environmental requirements.

iv. The contractor shall submit to First Databank (FDB) and Medi-span product information pertaining to the products repackaged under this contract, including the contractor's unique National Drug Code(s), during the period of contract performance. A New Product Submission Form can be completed by contacting:

vi. The contractor shall follow all appropriate requirements as implemented in Drug Supply Chain Security Act (DSCSA).

vii. Contractor shall have a minimum of two years past experience as a pharmaceutical repackager, for both controlled and non-controlled substances, in the volume that meets or exceeds an average of 6.5 million bottles per year.

b. Product Characteristic Requirements

i. The pharmaceutical bottles shall have the following characteristics:

- White pharmacy grade High-density polyethylene
- Round with no ridges, bowing or protrusions that would prevent them from being horizontally or vertically stacked. (Convex shaped bottles are unacceptable)
- Must have a flat surface with minimum dimensions of 2.5" W x 5.5" L sufficient for applying a label without overlap.
- Bottle sizes repackaged into are 120cc, 200cc, 300cc, 400cc, 625cc, 750cc 950cc, 2500cc, 3000cc and 4000cc.
- Bottles shall be identified with a number 1, 2, or 3 designation for recycling.
- A tamper evident seal shall be applied to each bottle. This seal must not be above/over the cap.
- Must be capable of being dispensed from the automated labeling and automated dispensing systems installed at each CMOP facility, including but not limited to:

Knapp A-Frames, SI Handling A-Frames, Flex-Pick systems, Automated Dispensing Unit (ADU) systems, automated labeling systems, and Package Dispensing and Labeling Automation (PDLA).

ii. The bottle caps shall have the follow characteristics:

- Shall not exceed the diameter of the bottle
- Shall be of convertible design to allow user to convert it from child-resistant to non-child resistant with hand applied pressure to the center of the cap. This child-resistant cap requirement currently only applies to unit-of-use package sizes, which have a tablet/capsule count of 15s, 30s, 45s, 60s, 90s, 120s, 135s, 180s, 270s, and 360s.
- Shall be imprinted with the MyHealthE Vet logo in accordance with the attached logo specifications. See Attachment B.

iii. All bottle and cap combinations shall meet or exceed the USP standards for moisture permeability and light resistance.

iv. The product labels shall have the following characteristics:

- Shall not exceed 3.5 mils thickness (for affixed labels).
- Directly printed labels may be used, but shall be machine readable and non-smudging.
- Labels must not peel off or be damaged in automated machinery.

v. The product labels shall include the following information:

- The product label must be of a material that will allow a patient label to adhere to it.
- Fill size and strength for quick recognition. The generic name shall be bold font and larger font than other printed matter.
- Drug name positioned such that after applying the patient label a pharmacist can still identify the product. The product name, strength and package size shall be printed twice on the label: once on the face of the label in the middle and once on the extreme left hand side vertically.
- Bar coded for contents. At the time of solicitation Bar Code 128 is required. The Government requirement for bar code may change during the performance of this contract to require a 2D (Q/R) type automated information data carrier. Bar codes shall be clear and defined with no break in the bar code graphics. A sufficient amount of clear white space needs to be around the bar code so numbers and/or letters do not interfere with the bar code. The Government requires identical vertical bar codes to appear on the left and right sides of the label. The bar code for Manufacturer Lot Number, Repackaged Batch Number, Expiration Date, and NDC number shall be printed vertically oriented, and also appear as human readable language adjacent to the bar code.
- State storage conditions
- Indicate the "Manufactured By" name and "Packaged By" name and address
- The statement "Warning: May be habit forming" where applicable, the controlled drug substances symbol required by Drug Enforcement Administration (DEA), and the name and quantity or proportion of any substance as required.
- Boxes or cases shall be clearly marked with a product label as described in 2.b.iv above. Bottle count shall be stamped on the outside of each case if it contains less than the standard container capacity (e.g.: 40 bottles in a box or case that holds 100) than would be expected.

vi. The repackager is not required to repackage the pharmaceuticals or apply the Product Characteristics described in paragraphs i – v to product that the NAC CO has designated as "distribution only" at the time repackaging instructions are provided. This currently applies to line items (e.g. The repackager receives two cases, with six 1000ct bottles each, and VA wants one case repackaged and one case kept for distribution as a case of six 1000ct bottles)

c. Product Handling

- i. Pharmaceuticals shall be received by the contractor directly from the pharmaceutical supplier. This product is Government-owned property and will be ordered from the pharmaceutical supplier by the VA NAC Contracting Officer (CO). Immediately, upon receipt of Government-owned property, the contractor shall log and reconcile all Government-owned property with the shipment purchase order and DSCSA transaction information if applicable. The contractor is responsible for any product damage caused while the product is in the contractor's care. These pharmaceuticals will be repackaged into unit of use sizes by direction of the Contracting Officer.
- ii. The contractor shall segregate Government stock from contractor's other products.
- iii. Pharmaceutical product retention shall be handled as defined in Code of Federal Regulation Title 21, Section 211.
- iv. Excess and/or damaged pharmaceuticals not repackaged will be added to the retention samples.
- v. Product shall be processed and repackaged into unit of use sizes in accordance with the instructions provided by the Contracting Officer no later than 14 calendar days after receipt of product from the pharmaceutical suppliers, unless another arrangement is agreed upon between the repackager and the Contracting Officer.
- vi. Destruction of retained samples, excess and/or damaged product shall be done in accordance with applicable regulations, including but not limited to any required by the DEA, FDA, and EPA. Within ten (10) days after destruction the contractor shall provide the Government with a Certificate of Destruction.
- vii. Finished product that is shipped on pallets shall be shrink-wrapped. Pallets shall contain a packing slip identifying contents line by line, as well as an itemized invoice. Controlled substances shall be wrapped separately from other portions of a shipment. All pallets shall be wrapped using black shrink wrap to encapsulate the pallet and containers. Repackaged product shall not exceed 25lbs per case or box.
- viii. Shipping of product will be completed FOB Destination within seven (7) days after receipt of order, by the ordering facility, in the fifty (50) states, and within fourteen (14) days after receipt of order, by the ordering facility, to Puerto Rico, American Samoa, the Virgin Islands, Guam, and the Philippines.

d. Ordering

- i. The contractor shall provide VA facilities with a secure web-based ordering system. Pricing for the pharmaceutical products will be provided by the Contracting Officer to the repackager to be placed in the ordering system, but at no time will the repackager be responsible for or authorized to collect payment from the VA facilities.
- ii. The ordering system shall be able to provide real-time confirmation within the system when an order is placed. The system shall process orders on a "fill or kill" basis, cancelling from the order any items that cannot be filled. The confirmation should indicate the cancelled items.
- iii. After an order has been placed, an email confirmation shall be sent to the person placing the order. Concurrently a copy of the order shall also be emailed to the NAC Contracting Officer or their designated point of contact.
- iv. When the order has shipped, a digitally signed email shall be sent to the ordering facility identifying the complete shipment, projected delivery date, and tracking number. This email shall also include a comma separated variable (CSV) file as an attachment, which will include the following minimum data fields:

v. The contractor shall make available contingency ordering methods for use when the web-based system is not functioning. These methods may include: fax, email, or standard delivery methods (i.e. USPS, UPS, etc.). If one of these alternate methods are used the contractor shall promptly notify the ordering facility by telephone or e-mail whose order is received in such a way as to render it garbled or unclear. Each ordering facility using alternative ordering processes shall be notified of the cancellation of any items from an order that cannot be filled or delivery will be delayed beyond the 7 or 14 (as appropriate for shipping destination) calendar days after receipt of order (ARO). At no time will oral orders be accepted.

(i) Any such clause is unenforceable against the Government.

(ii) Neither the Government nor any Government authorized end user shall be deemed to have agreed to such clause by virtue of it appearing in the EULA, TOS, or similar legal instrument or agreement. (f) *Late submissions, modifications, revisions, and withdrawals of offers.*

(1) Offerors are responsible for submitting offers, and any modifications, revisions, or withdrawals, so as to reach the Government office designated in the solicitation by the time specified in the solicitation. If no time is specified in the solicitation, the time for receipt is 4:30 p.m., local time, for the designated Government office on the date that offers or revisions are due.

(2)

(i) Any offer, modification, revision, or withdrawal of an offer received at the Government office designated in the solicitation after the exact time specified for receipt of offers is "late" and will not be considered unless it is received before award is made, the Contracting Officer determines that accepting the late offer would not unduly delay the acquisition; and—

(A) If it was transmitted through an electronic commerce method authorized by the solicitation, it was received at the initial point of entry to the Government infrastructure not later than 5:00 p.m. one working day prior to the date specified for receipt of offers; or

(B) There is acceptable evidence to establish that it was received at the Government installation designated for receipt of offers and was under the Government's control prior to the time set for receipt of offers; or

(C) If this solicitation is a request for proposals, it was the only proposal received.

(ii) However, a late modification of an otherwise successful offer, that makes its terms more favorable to the Government, will be considered at any time it is received and may be accepted.

(3) Acceptable evidence to establish the time of receipt at the Government installation includes the time/date stamp of that installation on the offer wrapper, other documentary evidence of receipt maintained by the installation, or oral testimony or statements of Government personnel.

(4) If an emergency or unanticipated event interrupts normal Government processes so that offers cannot be received at the Government office designated for receipt of offers by the exact time specified in the solicitation, and urgent Government requirements preclude amendment of the solicitation or other notice of an extension of the closing date, the time specified for receipt of offers will be deemed to be extended to the same time of day specified in the solicitation on the first work day on which normal Government processes resume.

(5) Offers may be withdrawn by written notice received at any time before the exact time set for receipt of offers. Oral offers in response to oral solicitations may be withdrawn orally. If the solicitation authorizes facsimile offers, offers may be withdrawn via facsimile received at any time before the exact time set for receipt of offers, subject to the conditions specified in the solicitation concerning facsimile offers. An offer may be withdrawn in person by an offeror or its authorized representative if, before the exact time set for receipt of offers, the identity of the person requesting withdrawal is established and the person signs a receipt for the offer.

(g) *Contract award (not applicable to Invitation for Bids).* The Government intends to evaluate offers and award a contract without discussions with offerors. Therefore, the offeror's initial offer should contain the offeror's best terms from a price and technical standpoint. However, the Government reserves the right to

conduct discussions if later determined by the Contracting Officer to be necessary. The Government may reject any or all offers if such action is in the public interest; accept other than the lowest offer; and waive informalities and minor irregularities in offers received.

(h) *Multiple awards.* The Government intends to make one award for all line items.

E.3 52.212-2 EVALUATION - COMMERCIAL ITEMS. (OCT 2014)

(a) The Government will award a contract resulting from this solicitation to the responsible offeror whose offer conforming to the solicitation will be most advantageous to the Government, price and other factors considered. Non-price factors consisting of Operational Capability; Past Performance; Management, Policies, and Procedures; and SDVOSB/VOSB participation are listed in descending order of importance. Subfactors listed under Operational Capability and Management Policies and Procedures will be weighed equally. Non-price factors, when combined, are slightly more important than price (repackaging/distribution fees).

(b) The Government reserves the right to make an award to other than the lowest-priced offer or to the offeror with other than the highest past performance or technical ranking if the Contracting Officer determines that to do so would result in the best value to the Government taking into consideration the factors and their relative importance indicated herein.

(c) Offers must submit the following required authorizations/certifications prior to contract award: FDA authorization, DEA Drug Diversion Group certificate, Child-Resistant Bottle certification, and copies of the most recent FDA and/or DEA inspections of the offeror's facility(s), to include any findings and resolutions.

(d) Technically Acceptable – Technical acceptability is separated into two parts. Offerors must pass both the requirement for compliance with past experience as well as the product sample submission to be further considered.

Offerors will first be evaluated on a pass/fail basis for compliance with the minimum two years of recent proven past experience as a pharmaceutical (controlled and non-controlled substances) repackager in the volume that meets or exceed an average of 6.5 million bottles per year. Offerors that fail to meet the minimum two years of recent proven past experience shall be rejected and shall receive no further consideration. No other analysis of the offer will take place before rejecting on this basis, this is a threshold evaluation factor. This experience requirement is exclusive to the potential prime contractor and shall not include the experience of subcontractors or partners.

The second pass/fail evaluation is a product sample submission and is evaluated on a pass/fail basis. Each offeror shall include a sample bottle for each size, which are a true representation of the bottles that would be used to fulfill the requirements of this solicitation. All bottles submitted shall be sealed (not just contain a seal in the cap), capped, and shall have sample labels affixed to or printed on the bottles of the type produced by the offeror's production system. The samples shall consist of one of each of the following size bottles: 120cc, 200cc, 300cc, and 625cc. These samples will be used to evaluate the bottle's compatibility with CMOP automated equipment, and if the bottle meets the minimum requirements identified in section 2 of the Statement of Work. Samples will not be returned to the offeror. The samples must be submitted by the offer due date. Any offer whose proposed samples does not meet the minimum requirements, or are not compatible with CMOP automated equipment, shall receive a fail and shall receive no further consideration. This is a threshold evaluation factor since the bottles must work in our CMOP machines.

Offerors with acceptable product samples and the required minimum two years recent proven past experience will continue to be evaluated based on the following factors:

1. **Price.** The Government will evaluate the offeror's proposed prices for all line items for the base year and all four option years. Evaluation will be based on the aggregate price.

To be considered for award, offerors must submit a price for line items 0001A through 0014A for the base year and all four option years. Award will be made in the aggregate for all line items based on the estimated quantities provided in the schedule of supplies/services. The total aggregate price will be computed by multiplying the estimated quantities of the line items by the unit price offered for the base year and each option year and adding the results. Proposals that fail to include prices for all line items will be rejected and will receive no further consideration.

2. **Operational Capability.** The Government will evaluate the offeror's technical ability. By technical ability the Government means the offeror's ability to meet the requirements of the solicitation with offeror's existing technology, resources, and facilities, and to sustain a continuous operation of the volume called for in this solicitation. Information identified under the Technical Proposal Content relevant to the offeror's technical ability, will be used for the evaluation. The following sub-factors will be equally weighted:

- (a) Operational capabilities, to include current production system(s) and facility(s); web-based ordering systems, packaging and shipping processes; and security practices
- (b) Methods used for quality control, to include but not be limited to receiving and accountability functions, accuracy, controlling separation and segregation of stock, and providing for contingencies

3. **Past Performance.** Past performance is a measure of the degree to which an offeror satisfied its customers in the past, and is an indicator of an offeror's ability to perform the contract successfully. Evaluation of past performance will be a subjective assessment based on consideration of all relevant facts and circumstances. The Government may use information from its own files, including the Past Performance Information Reporting System (PPIRS), information provided by VA facilities, information from sources listed on Attachment "A," or from any other source the Government deems appropriate.

The Government will determine whether the offeror has consistently demonstrated adherence to contract terms and conditions and a commitment to customer service; commitment to quality of products provided; history of product recalls; commitment to quality of contract-related services performed; commitment to providing the products required by customers in the bottle sizes required; commitment to accuracy of reports; commitment to timeliness of deliveries; product price accuracy; completeness of contract prices invoiced; business-like concern to customer's interest; and reasonable and cooperative behavior. The Government will take into consideration the offeror's experience on the depth, breadth, relevancy, and currency for contracts similar to this procurement.

4. **Management, Policies, & Procedures.** The Government will evaluate how the offeror will manage the day-to-day operations, to include but not be limited to, compliance with FDA and DEA requirements; offeror's contingency and security plans; and how the offeror will schedule workload should a conflict or extremely heavy workload demand present itself. Information identified under the Technical Proposal Content relevant to the offeror's management processes, will be used for the evaluation. The following sub-factors will be equally weighted:

- (a) Offeror's management plan for maintaining production schedules of this solicitation in addition to work required of concurrent production contracts the offeror may hold, including but not limited to implementation schedule if selected for this contract; and plan for contingency operations
- (b) Offeror's management plan to attain and maintain a quality business, including but not limited to customer service processes and their methods of monitoring compliance to FDA and DEA requirements, including DSCSA and any renewal of any required (Federal and State) certifications

5. **Service-Disabled Veteran-Owned Small Business / Veteran-Owned Small Business (SDVOSB / VOSB) Participation.** In an effort to achieve socioeconomic small business goals VA shall evaluate offerors based on their service-disabled veteran-owned or veteran-owned small business status and their proposed use of eligible service-disabled veteran-owned small businesses and veteran-owned small businesses as subcontractors. The Government will assign extra evaluation credit for an Offeror which is a Service-Disabled Veteran-Owned Small Business (SDVOSB) or Veteran-Owned Small Business (VOSB). Other firms which propose subcontracting to SDVOSBs or VOSBs will also receive extra evaluation credit. Any proposed prime or subcontractor SDVOSBs or VOSBs must be verified in the Veteran Information Pages (VIP). In an effort to achieve socioeconomic small business goals, the evaluation of SDVOSBs and VOSBs will consider the following:

- (a) Veteran-Owned Small Business and Service-Disabled Veteran-Owned Small Business status

(b) Proposed Use of Veteran-Owned and Serviced-Disabled Veteran-Owned Small Business Subcontractors

(d) Options. The Government will evaluate offers for award purposes by adding the total price for all options to the total price for the basic requirement. The Government may determine that an offer is unacceptable if the option prices are significantly unbalanced. Evaluation of options shall not obligate the Government to exercise the option(s).

(e) A written notice of award or acceptance of an offer, mailed or otherwise furnished to the successful offeror within the time for acceptance specified in the offer, shall result in a binding contract without further action by either party. Before the offer's specified expiration time, the Government may accept an offer (or part of an offer), whether or not there are negotiations after its receipt, unless a written notice of withdrawal is received before award.

Site Visit. Offerors are advised that VA reserves the right to visit an offeror's facilities prior to awarding a contract under this solicitation, for the purpose of verifying contractor responsibility. The site visit may require a tour of the offeror's repackaging process and disclosure of management functions. A site visit should not be construed as a promise of a contract award. Offerors will be notified in advance if a site visit will be conducted.

(1) ☐ Are, ☐ are not presently debarred, suspended, proposed for debarment, or declared ineligible for the award of contracts by any Federal agency;

(2) ☐ Have, ☐ have not, within a three-year period preceding this offer, been convicted of or had a civil judgment rendered against them for: commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a Federal, state or local government contract or subcontract; violation of Federal or state antitrust statutes relating to the submission of offers; or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, tax evasion, violating Federal criminal tax laws, or receiving stolen property; and

(4) ☐ Have, ☐ have not, within a three-year period preceding this offer, been notified of any delinquent Federal taxes in an amount that exceeds \$3,500 for which the liability remains unsatisfied.

(i) Taxes are considered delinquent if both of the following criteria apply:

(A) *The tax liability is finally determined.* The liability is finally determined if it has been assessed. A liability is not finally determined if there is a pending administrative or judicial challenge. In the case of a judicial challenge to the liability, the liability is not finally determined until all judicial appeal rights have been exhausted.

(B) *The taxpayer is delinquent in making payment.* A taxpayer is delinquent if the taxpayer has failed to pay the tax liability when full payment was due and required. A taxpayer is not delinquent in cases where enforced collection action is precluded.

(ii) Examples.

(A) The taxpayer has received a statutory notice of deficiency, under I.R.C. §6212, which entitles the taxpayer to seek Tax Court review of a proposed tax deficiency. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek Tax Court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(B) The IRS has filed a notice of Federal tax lien with respect to an assessed tax liability, and the taxpayer has been issued a notice under I.R.C. §6320 entitling the taxpayer to request a hearing with the IRS Office of Appeals Contesting the lien filing, and to further appeal to the Tax Court if the IRS determines to sustain the lien filing. In the course of the hearing, the taxpayer is entitled to contest the underlying tax liability because the taxpayer has had no prior opportunity to contest the liability. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek tax court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(C) The taxpayer has entered into an installment agreement pursuant to I.R.C. §6159. The taxpayer is making timely payments and is in full compliance with the agreement terms. The taxpayer is not delinquent because the taxpayer is not currently required to make full payment.

(D) The taxpayer has filed for bankruptcy protection. The taxpayer is not delinquent because enforced collection action is stayed under 11 U.S.C. §362 (the Bankruptcy Code).

(i) Certification Regarding Knowledge of Child Labor for Listed End Products (Executive Order 13126).
